VIDEO, SECURITY & BEYOND

HIKVISION'S VERSATILE POE NETWORK SWITCHES

Hikvision's Professional PoE Switches bring a comprehensive end-to-end video solution that delivers intelligent security and easy management.

VISUAL Dashboard provides visual system health status and sends real-time alerts, enables live camera views, and configuration to save integrators and users time by simplifying daily troubleshooting, maintenance, and management. (Available on both 100 Mbps & GB Smart Managed Switches)

POWERFUL Up to 90W per PoE Port Gigabit Switch delivers a substantial power source for high-power consumption cameras like Network Speed Domes, Multi-Lens Cameras, and TandemVu PTZs. Up to 984 feet long distance for transmission simplifies installation and reduces costs.
CONVENIENT Easy switch deployment saves time and money with simplified installation.

SECURE Auto-restart cameras once they are detected offline to secure video recording and ensure all critical events are captured.

PERFORMANCE Key features like VLANs for segmenting, QoS for traffic prioritization, port bandwidth controls, and SNMP monitoring uplevel your network management. (Available on Gigabyte Smart Managed Series Switches)

**Topology and direct camera pre-view with PTZ control only available in Smart Managed Switches Series

** Hi-PoE power supply only available in Hi-PoE Unmanaged Switch Series
