Hikvision's unified solution connects intercom, access control and video security with seamless, in-house integration

- A variety of modules provide customized access and call methods for many user needs. Combined authentication method delivers enhanced safety and security.
- PC-free configuration for intercom systems simplifies the setup process and saves users time and money.
- Easy deployment with detailed visual network information and network health detection brings convenient maintenance to the overall network.

## DS-KD9633-WBE6 APARTMENT INTERCOM DOOR STATION

- Seamless 2-way audio communication with indoor stations and mobile devices
- Card/PIN code access as well as intelligent authentication for entry
- Built-in 2 MP dual lens camera for crystal clear video monitoring
- 10-inch curved screen displays high-quality content

## DS-KD-TDM MODULAR DOOR UNIT

- Use with DS-KD8003-IME1 door station that provides power via RS-485 connection
- Provides card and PIN code authentication and displays contact list
- IP65 and IK08 rating to operate between -4° F to 140° F for performance in harsh environments

## DS-KH9510-WTE1 ULTRA SERIES POE INDOOR STATION

- Receive intercom calls with crystal clear audio and video from your door station
- All-in-one management of access control, intercom, and video
- Support up to two, third-party Android applications

## SMART MANAGED SWITCHES

- DS-3E1510P-SI, 8-port managed
- DS-3E1518P-SI, 16-port managed
- DS-3E1526P-SI, 24-port managed
- DS-3E1552P-SI, 48-port managed (coming soon)

- Ensures stable bandwidth and low latency for specific network traffic
- Auto-adjust performance by network throughput, virtually isolate ports to avoid data leak and network storms
- Capable of dividing the virtual LAN to improve network security
